

# Choice is key

**at Mount Vernon Nursing and Rehabilitation Center.**

As evidenced by the fact that over 95 percent of our admissions pay for their care through health insurance benefits or personal assets, we are preferred by those who have a choice. Once they're part of the MVNRC family, choice is still very much a part of their lives.

Significantly more flexible and responsive to our residents' individual needs than large corporately owned facilities, our resident-centered approach to care allows each individual to maintain control of his or her life up to the limits of their capabilities. It's just one more reason why we're the right choice in the Alexandria/Mount Vernon community for those who expect the best.

*A full program of social and recreational activities.*

## **Mount Vernon Nursing & Rehabilitation Center**

*Extraordinary care... for those who expect the best.*
